Regarding claims 2-8, claims 2-8 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 9, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 9, and specifically comprising the limitation of forming a second electrode on the layer which emits the electroluminescence, forming a catalyst layer for curing a first sealing material over the second electrode, applying the first sealing material onto a second substrate, and bonding the first substrate to the second substrate.

Regarding claims 10-18, claims 10-18 are allowable for the reasons given in claim 9 because of their dependency status from claim 9.

Regarding claim 19, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 19, and specifically comprising the limitation of forming a second electrode on the layer which emits the electroluminescence, applying a first sealing material to the first substrate, forming a catalyst layer for curing the first sealing material on a second substrate, and bonding the first substrate to the second substrate.
